# SHARKBITE® CONNECTION SYSTEM

## CUT. PUSH. DONE.

The SharkBite Connection System makes any plumbing project fast and easy with our unique push-to-connect technology. When you insert a pipe into the SharkBite quick connect fittings, the stainless steel teeth bite down and grip the pipe, while the specially formulated O-ring compresses to create the perfect watertight seal. No soldering, clamps, unions or glue.

Our product works with your existing plumbing, is easy to disassemble for changing and reusing fittings, and can be rotated for easier installation in tight spaces. Perfect for joining Copper, PEX, CPVC or PE-RT pipe, SharkBite is the no fuss way to fix small leaks or plumb a whole house.

Our proven system includes hundreds of products from dozens of different fittings, a wide range of push-to-connect valves and even our own SharkBite PEX Pipe to make completing a job even easier.

Compatible with many Cash Acme valves, try the SharkBite connection system for your next project and discover just how fast and easy fixing a leak or plumbing a house should be.

[www.sharkbite.ca](http://www.sharkbite.ca)

**All SharkBite fittings are made of Lead Free DZR brass and exceed ASSE 1061 Section 1V, 4.1 Materials-Dezincification (DZR) - ISO 6509 standards.**

1/2" X 1/2" FNPT Straight		U072LF	12
3/4" X 3/4" FNPT Straight		U088LF	6
3/4" X 1/2" FNPT Bullnose		U092LF	6
1" X 1" FNPT Straight		U094LF	6

## HOW TO INSTALL SHARKBITE PUSH-TO-CONNECT PRODUCTS

### CUT:

Cut the pipe square removing rough edges and debris. Mark the pipe to the correct insertion depth.

### PUSH:

Push pipe and fitting together up to the depth mark.

### DONE.

\*Using the disconnect clip, fittings can be easily changed, removed and reused.

<b>STUB OUT ELBOWS</b>		
1/2" SB X 1/2" Copper Tube 8" Length	U351LFCA	6
<b>PRESSURE GAUGES</b>		
1/2" SB Tee with Pressure Gauge	24436	1
3/4" SB Tee with Pressure Gauge	24438	1
1" SB Tee with Pressure Gauge	24440	1

PRODUCT DESCRIPTION	PART NUMBER	QTY/BAG
1/2" CTS Pressure Gauge (inserts into any 1/2" SB fitting)	24442	1
3/4" CTS Pressure Gauge (inserts into any 3/4" SB fitting)	24444	1
<b>TEMPERATURE GAUGES</b>		
1/2" SB Tee with Temperature Gauge	24437	1
3/4" SB Tee with Temperature Gauge	24439	1
1" SB Tee with Temperature Gauge	24441	1
1/2" CTS Temperature Gauge (inserts into any 1/2" SB fitting)	24443	1
3/4" CTS Temperature Gauge (inserts into any 3/4" SB fitting)	24445	1

<b>1-H: KITS</b>		
<b>WATER HEATER INSTALLATION KITS</b> (KITS INCLUDE 2 SHARKBITE CONNECTOR FITTINGS AND A DISCONNECT CLIP)		
1/2" X 3/4" FNPT	22604LF	12
3/4" X 3/4" FNPT	22441LF	12
<b>CONTRACTOR KITS</b> (KIT INCLUDES TOOLBOX)		
Contractor Kit: 2 each (U008LF, U016LF, U058LF, U072LF, U088LF, U120LF, U134LF, U248LF, U256LF) and 1 each (U362LF, U370LF, U514LF, U518LF, U710, U711, U713 and U702)	22486LF	1
Contractor Tool Box Only	U3001A	1
<b>FAUCET KIT IN BAGGED PACKAGING</b> (FAUCET KITS COME WITH 2 FAUCET CONNECTORS, 2 ANGLE STOPS, AND 1 COIL OF 10' 1/4" WHITE PEX PIPE)		
Faucet Connector with Angle Stop	25087	3
Faucet Connector with Straight Stop	25538	3
<b>TOILET KIT IN BAGGED PACKAGING</b> (TOILET KITS COME WITH 1 TOILET CONNECTOR, 1 ANGLE STOP, AND 1 COIL OF 5' 1/4" WHITE PEX PIPE.)		
Toilet Connector with Angle Stop	25088	6
Toilet Connector with Straight Stop	25539	3
<b>ICE MAKER KIT IN BAGGED PACKAGING</b> (ICE MAKER KITS COME WITH 1 SERVICE SLIP TEE, 1 ANGLE STOP, 1 VALVE CONNECTOR, 10' 1/4" WHITE PEX PIPE)		
Ice Maker Connector with Angle Stop	25024	1
<b>WATER FILTER INSTALLATION KITS</b>		
3/4" SharkBite Water Filter Installation Kit	25561	6
1" SharkBite Water Filter Installation Kit	25562	6
<b>DISHWASHER INSTALLATION KIT IN BAGGED PACKAGING</b>		
Dishwasher Installation Kit	25568	3
<b>SHOWER/TUB INSTALLATION KIT IN BAGGED PACKAGING</b>		
KIT Contains 2 Drop Ear Elbows, 2 Female Connectors, 2 Female Elbows and 1 Disconnect Clip	25567	3
<b>ICE MAKER OUTLET BOX KIT</b>		
1/2" SB X 1/4" Compression Ice Maker Outlet Box	25096	1
1/2" SB X 1/4" Compression Ice Maker Outlet Box with Water Hammer Arrestor	25097	1
<b>WASHING MACHINE OUTLET BOX KIT</b>		
1/2" SB X 3/4" MHT Washing Machine Outlet Box	25098	1
1/2" SB X 3/4" MHT Washing Machine Outlet Box with Water Hammer Arrestor	25099	1
<b>WASHING MACHINE VALVES</b>		
1/2" SharkBite X 3/4" MHT Washing Machine Angle Valve	25559LF	6
1/2" SharkBite X 3/4" MHT Washing Machine Straight Valve	25560LF	6

# Benefits of SharkBite PEX

## Health/Safety

No glue, solder, or solvents required for the connection process, which keeps potentially dangerous chemicals out of plumbing systems. Additionally, SharkBite PEX Pipe eliminates the need for open flames in the house that could be a potential fire hazard. There is no risk of copper traces in water from breakdown of pipe that has been linked to heart disease and Alzheimer's.

## Chlorine Resistance

SharkBite PEX Pipe is tested to the highest level of chlorine resistance standards, testing at 100% chlorine at 140°F.

## Proven and Guaranteed

SharkBite PEX Pipe has been around for more than 35 years with over 12 Billion feet of pipe installed worldwide.

## Freeze Resistant

SharkBite PEX Pipe is freeze resistant as the pipe can expand and contract as water freezes and thaws within the pipe.

## Flexibility

Able to bend pipe around corners which removes the need for 45° or 90° elbows in certain situations. SharkBite's new coiling process increases the flexibility of our coiled pipe even more.

## Cost Effective

SharkBite PEX Pipe is substantially more cost effective than Copper pipe—SharkBite PEX Pipe costs a third of the price of Copper. SharkBite PEX Pipe is a fixed cost as prices don't fluctuate daily like Copper pipe.

## PROUDLY AMERICAN MADE

## SharkBite PEX – CERTIFICATIONS

NSF/ANSI 14

UL 1821

# MADE IN NORTH AMERICA

SharkBite PEX Pipe is an cost effective piping solution approved for use in both hot and cold plumbing installations. Meeting the highest chlorine resistance standards and utilizing the most energy efficient manufacturing processes, our PEX pipe is proudly produced in Alabama. We own our manufacturing process from start to finish, so every piece of SharkBite PEX Pipe is guaranteed from concept to delivery.

PEX pipe was introduced to North America in 1984 based on European market success, and was tested extensively for durability and material performance. All USA-installed PEX pipe must meet the qualification requirements as specified in the ASTM PEX Standards. SharkBite PEX Pipe can bend up to six times the outside diameter of the pipe—which is the maximum bend radius recommended by PEX pipe manufacturers.

SharkBite PEX Pipe can be used in a variety of applications including:

- Domestic plumbing
- Fire suppression systems (residential fire sprinklers)
- Municipal water service pipe for use in underground applications
- Radiant heating systems for suspended floor systems or in slab construction
- Snow and ice melt systems for sidewalks, driveways, entrances, and ramps
- Turf conditioning for greenhouses, golf courses, and sports fields
- Water reuse and reclamations systems

# WATER CONTROL VALVES THAT STAND THE TEST OF TIME

In 1893, A.W. Cash designed a valve for U.S. Navy submarines. With the bottom of the sea as his testing ground, the valve became celebrated for its performance, reliability and dependability. Today, every water control valve we build is born from its DNA.

With more than 100 million valves produced and counting, Cash Acme is the world's largest volume T&P valve producer—and is a trusted manufacturer of water control valves to safeguard water delivery in residential, commercial and industrial settings.

It's our commitment to quality that has driven a century of success with water control valves that stand the test of time. Proudly built in America for more than 100 years, Cash Acme's ISO 9001-certified quality assurance processes ensure that every valve that leaves our facility is 100% tested and meets all standards.

## NOTES

## NOTES

## NOTES

# FREQUENTLY ASKED QUESTIONS

## FOR USING SHARKBITE FITTINGS

### CAN I USE SHARKBITE FOR ANYTHING OTHER THAN POTABLE WATER?

Yes, in addition to potable water applications, SharkBite is also certified for radiant hydronic heating applications (up to 93°C/200°F). NOTE: Glycol mixture for hydronics is acceptable up to and including 100%.

### CAN SHARKBITE BE USED REPEATEDLY?

Fittings can be reused for testing purposes but any fitting used repeatedly for testing must not then be used in a permanent position. The de-mount function of the fitting is designed for rectifying issues during installation or modification to existing plumbing work. It is not designed to be disconnected on a daily or weekly basis.

### DO YOU NEED THE DISCONNECT CLIP TO REMOVE SHARKBITE FITTINGS?

Yes, the SharkBite disconnect clip or tongs are required to properly remove fittings in the SharkBite range.

### WHAT TYPES OF PIPE MATERIAL CAN SHARKBITE FITTINGS BE USED WITH?

SharkBite fittings are certified for use with copper, PEX, CPVC and PE-RT only. Specific fittings for polybutylene and PVC are available on pages 6-7.

### CAN A SHARKBITE FITTING BE ROTATED ON A PIPE?

Yes, the fitting can be rotated after assembly on a pipe and will not affect the integrity of the joint.

### ARE SHARKBITE FITTINGS APPROVED FOR UNDERGROUND USE?

Fittings should be wrapped with an impervious material, chloride-free tape or tightly wrapped and sealed insulation to prevent direct contact with the backfill. Backfill should be free of rocks, debris or any sharp objects that may cause damage through impact or abrasion. NOTE: As with any plumbing project subject to inspection, it is always important to reference your local plumbing code.

### WHAT IS THE DIFFERENCE BETWEEN RED, WHITE, BLUE, AND ORANGE COLORED PEX PIPE?

Red, White, and Blue PEX pipe are exactly the same, the different colors allow you to identify individual lines such as hot and cold. All three colors are certified for potable water applications while the Orange pipe is an oxygen barrier PEX pipe used for hydronic heating applications.

### WHAT ARE THE MAXIMUM TEMPERATURE AND PRESSURE RATINGS FOR SHARKBITE FITTINGS?

SharkBite fittings are certified to 200 psi and 93°C (200°F).

### HOW WELL DO SHARKBITE JOINTS HOLD UP TO FREEZING TEMPERATURES?

Neither brass nor metal fittings should be subject to freezing temperatures – SharkBite push-to-connect and Barb fittings are no different. Freezing temperatures may cause SharkBite fittings to fail.

### DO SHARKBITE FITTINGS LEAK?

In general, SharkBite fittings only leak due to one of three reasons:

1. The pipe was not properly deburred prior to installation.
2. The pipe was not properly inserted.
3. Damages, marks or debris on the OD of the pipe.

### IS THE STIFFENER NECESSARY FOR COPPER AND CPVC AND CAN THE STIFFENER BE REMOVED?

The stiffener is necessary for use with PEX pipe. It is not required for copper or CPVC, however it is not necessary to remove stiffener from the fitting.

### WHAT IS THE INSERTION DEPTH FOR THE SHARKBITE FITTINGS?

Insertion depth will depend on the size of the fitting:

1/4" (3/8" OD) Pipe Insertion Depth = 3/4"  
3/8" (1/2" OD) Pipe Insertion Depth = 3/4"  
1/2" Pipe Insertion Depth = 7/8"  
5/8" Pipe Insertion Depth = 1"  
3/4" Pipe Insertion Depth = 1"  
1" Pipe Insertion Depth = 1-1/4"

### WHAT IS THE INSERTION DEPTH FOR THE SHARKBITE LARGE DIAMETER FITTINGS?

Insertion depth will depend on the size of the fitting:

1-1/4" Pipe Insertion Depth = 2"  
1-1/2" Pipe Insertion Depth = 2-1/4"  
2" Pipe Insertion Depth = 2-1/2"

### HOW CLOSE CAN I SOLDER/SWEAT COPPER NEAR A SHARKBITE CONNECTION?

Do NOT solder next to SharkBite connection. If you are soldering/sweating copper pipe, solder/sweat all connections first and then make the SharkBite connections.

### HOW DO I KNOW IF ALL CONNECTIONS ARE MADE CORRECTLY?

Always test with water or air on completion and before covering the pipe.

### WHAT STEPS SHOULD BE TAKEN FOR A PIPE THAT WILL NOT ENGAGE WITH A SHARKBITE FITTING?

If the pipe is difficult to insert or will not engage into the fitting, do not force the connection! Simply remove, and check for obstructions.

### DO SHARKBITE CONNECTIONS REQUIRE ADDITIONAL LUBRICATION?

The O-ring, a key component of the SharkBite fitting, is pre-lubricated during manufacturing and no additional lubricants need to be applied.

# TERMS AND CONDITIONS OF SALE

As at the time of printing, Minimum Billing, Shipping Allowance and Return Goods Policy are as below. Please check the website for updated terms and conditions.

- **MINIMUM BILLING:** A minimum billing charge of \$100.00 applies to shipments.
- **SHIPPING ALLOWANCE:** All sales are F.O.B. shipping point. Shipments of less than the amount listed below for the respective product groups are “prepaid and add.” Shipments greater than those listed are “prepaid” when made at the lowest motor carrier rates, as determined by us, to all destinations within Canada.

PEX tubing	\$3,000
All other products	\$1,700

- **RETURN GOOD POLICY:** No material shall be returned without an R.G.A. number as assigned by RWC Customer Service. When credit is issued it will be at the price charged or current price if lower, less all applicable handling charges and fees (generally a minimum of 20%). Products which are obsolete or made to special order are not refundable.

## LEAD FREE\*

In January 2014 a new Federal law came into effect that introduced a lead-free requirement across the country.

The SharkBite push-to-connect range and the SharkBite PEX/BARB range are made from lead-free DZR brass and all products were converted as of October 2012.

More information is available on our websites at:

[www.cashacme.ca](http://www.cashacme.ca)  
[www.sharkbite.ca](http://www.sharkbite.ca)

In this document, products are marked “Lead Free” or “Non-Potable” as applicable.

- “Lead Free” indicates that a product is suitable for use in an application that is anticipated or intended to deliver water for human consumption.
- “Non-Potable” designates that a product is only suitable for applications that are not anticipated or intended to deliver water for human consumption.

If a product is not marked “Lead Free” or “Non-Potable” it is either:

- Not designed to come into contact with water (e.g. tools, crimp rings, pipe hangers), or
- It is a replacement part or component for a valve or piece of Original Equipment, where it is necessary for the function of that valve or equipment to use the identical specification component with which it was originally designed and certified.

\* A device is defined as Lead Free if its wetted surface has a weighted average lead content not exceeding 0.25%.

# LIMITED WARRANTY

## SHARKBITE AND CASH ACME PRODUCTS

### WHAT DOES THIS WARRANTY COVER?

Subject to conditions outlined in this statement, RWC (in the USA, Reliance Worldwide Corporation and in Canada, Reliance Worldwide Corporation (Canada) Inc.) warrants to owners of real property in the United States and Canada that SharkBite and Cash Acme products, when used and installed in accordance with the requirements set forth, shall be free from defects in material and workmanship for the applicable Warranty Period. This Limited Warranty is in effect for installations made after January 1, 2016 and is applicable to products installed in the country in which they were purchased.

Proof of purchase is required to validate the Warranty Period. If proof of purchase is not available, the Warranty Period commencement shall default to the date of manufacture for each product. If the product suspected of a defect does not have a clear date of manufacture on it, a proof of purchase will be required.

### WHAT ARE THE CONDITIONS OF THIS WARRANTY?

1. All products must be installed in accordance with all then applicable codes, good plumbing practice, in accordance with any local, state, provincial or federal requirements, and installed in a potable water or radiant heating application unless a non-potable water service is specifically allowed for in the pertinent product literature.
2. The installer must use construction techniques compliant with then applicable codes to install the product and use the product within the design parameters specified in any installation guidelines and technical notes for the applicable system. This shall include field pressure testing prior to concealing with concrete or by other means and wrapping any brass fitting when buried. Failure to install RWC products according to manufacturer's installation instruction will void all applicable warranties and may result in severe water damage.
3. Products must at all times be used in a manner consistent with their intended use and be used in installations and environments acceptable to their material and design specifications, including not being installed in a system that may operate at temperatures or at pressures that exceed the approved ratings which can be found on the product, packaging or installation instructions.
4. Additional product specific conditions of this Limited Warranty and the Warranty Period are documented in the section entitled "HOW LONG DOES THE LIMITED WARRANTY COVERAGE LAST AND WHAT OTHER SPECIFIC CONDITIONS EXIST FOR EACH PRODUCT?". A condition for SharkBite Connection Systems is that the product must be installed by a licensed professional plumbing contractor.
5. Without limiting the foregoing, this Limited Warranty does not apply and you do not have a right of reimbursement if the product failure or resulting damage is caused by: (a) evidence of tampering, mishandling, neglect, abuse, accidental damage, freeze damage (it is expressly understood that failure as a result of any freezing fluids within the pipes does not constitute a defect in material or workmanship and shall not be covered by this warranty) or unauthorized modifications or repairs that cause damage to warranted products; (b) exposure to harmful, unauthorized, or unanticipated chemicals or substances or corrosive water conditions; (c) exposure to ultraviolet light; (d) faulty installation including failure to follow proper burial instructions; (e) damage from abnormal operating conditions including exposure pressures and temperatures beyond the specified operating range; (f) failure to properly test and pass common testing methods (including pressure testing) after the installation and before the product or system is put in service; (g) components not manufactured or sold by RWC; or (h) acts of nature such as earthquakes, fire, flood or lightning.
6. Although RWC provides a plumbing system to facilitate a complete installation, other manufacturers pipe and/or fittings may be installed in any given installation provided manufacturing of the pipe and/or fittings demonstrates compliance with the applicable ASTM/CSA standards, and the product has been certified by a recognized third-party testing agency. The RWC product in the given installation will continue to be covered under this Limited Warranty although limits on Warranty Period may apply. RWC will be responsible only for proven defects in material or workmanship in RWC products. Problems in products manufactured by another company should be reported to that manufacturer.

### HOW DO YOU GET SERVICE?

In order to be eligible for service under this Limited Warranty you must return the defective product to RWC for inspection and testing within thirty (30) days after detection of alleged failure or defect occurring within applicable Warranty Period (with shipping charges prepaid) to the original place of purchase. If the alleged

defect involves a connection or joint with a RWC product, the fitting must be returned with a section of the pipe still inserted. You must include the model number of the product (if available), the original date of purchase, proof of purchase and the nature of the alleged product failure or defect. Products returned without shipping charges prepaid will be refused. For questions or inquiries, in the U.S. call 1(877)700-4242 and in Canada 1(888)820-0120.

### WHAT WILL RWC DO?

If, after inspection, we find that a product covered by this Limited Warranty has failed due to a defect in material or workmanship during the specified Warranty Period, we will repair or replace, at our sole option, free of charge, the defective product during normal working hours and through a place of business as determined by RWC.

Notwithstanding anything to the contrary in this Limited Warranty, if RWC determines that any damages to the real property in which a defective product was installed were the direct result of a leak or failure caused by a defect in material or workmanship in any RWC product covered by this Limited Warranty and occurring within the first ten years after date of purchase or during the applicable Warranty Period, whichever is shorter, and if reasonable steps were taken to promptly limit or stop the effects of such leak or failure as soon as it was discovered, then RWC will reimburse the property owner for the reasonable costs of repairing or replacing such damaged real property to include flooring, drywall and painting and other real property damaged by the leak directly caused by the allegedly defective RWC product. Except as specified above or otherwise specifically authorized in writing by RWC, RWC shall not pay for any costs or expenses for transportation, relocation, labor, repairs or any other work associated with removing and/or returning failed or defective products or installing replacement products.

This shall constitute the sole and exclusive remedy for any defective product.

### WHAT DOES THIS LIMITED WARRANTY NOT COVER?

RWC shall not be responsible for any other incidental, indirect, contingent, special or consequential damages, including without limitation, economic loss, lost profits or the cost of repairing or replacing other property which is damaged if these warranted products do not work properly, other costs resulting from labor charges, delays, vandalism, negligence, fouling caused by foreign material, damage from adverse water conditions, adverse chemical environments, or any other circumstances over which RWC has no control. This limitation applies even if RWC could have foreseen or has been advised of the possibility of these damages. This Limited Warranty shall be invalidated by any abuse, misuse, misapplication or improper installation of the product. Any remaining warranty coverage may not be assigned or transferred after the period ending ten years following the installation. RWC does not guarantee or in any way warrant the integrity or workmanship of the contractor/installer.

### MISCELLANEOUS

Some States/Provinces do not allow limitations on how long an implied warranty lasts, and some States/Provinces do not allow the exclusion or limitation of incidental or consequential damages. Therefore, the above limitations may not apply to you. This Limited Warranty gives you specific legal rights, and you may have other rights that vary from State/Province to State/Province. You should consult applicable State/Provincial laws to determine your rights.

SO FAR AS IS CONSISTENT WITH APPLICABLE STATE/ PROVINCIAL/ FEDERAL LAW, THE EXPRESS WARRANTY SET FORTH HEREIN IS THE ONLY WARRANTY GIVEN BY RWC WITH RESPECT TO THE SHARKBITE AND CASH ACME PRODUCTS AND RWC MAKES NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, AND HEREBY SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

This Limited Warranty and any claims arising from breach of contract, breach of warranty, tort, or any other claim arising from sale or use of RWC's products shall be governed and construed under the laws of the State of Georgia. No action on the part of RWC under this Limited Warranty shall be construed as an admission of liability of that the product is not fit for its intended use.

## HOW LONG DOES THE LIMITED WARRANTY COVERAGE LAST AND WHAT OTHER SPECIFIC CONDITIONS EXIST FOR EACH PRODUCT?

CLASSIFICATION	PRODUCT CATEGORY	LIMITED WARRANTY PERIOD	CONDITIONS
SharkBite Connection Systems	SharkBite Brass and Poly PEX Barb Fittings in conjunction with SharkBite PEX Pipe and SharkBite Rings/Clamps	Twenty-Five (25) Years	System must be installed by a licensed professional plumbing contractor and include: <ul style="list-style-type: none"><li>SharkBite PEX Pipe Only - ASTM F876/CSA B137.5</li><li>SharkBite Copper Crimp Rings – ASTM F1807 or F2159</li><li>Stainless Steel Clamp Rings – ASTM F2098</li></ul>
SharkBite and Cash Acme Products	SharkBite Universal Push-to-Connect Fittings and SharkBite Large Diamteter Large Diameter Push-to-Connect Fittings in Application with Copper, PEX, CPVC and/or PE-RT	Twenty-Five (25) Years	Must be used with: <ul style="list-style-type: none"><li>Copper-ASTM B 88 hard drawn copper tube K, L, and M</li><li>PEX-ASTM F876/CSA B137.5</li><li>CPVC-ASTM D2846 or CSA B137.6</li><li>PE-RT-ASTM F2769</li></ul>
	SharkBite Universal Push-to-Connect Fittings and SharkBite Large Diamteter Large Diameter Push-to-Connect Fittings in Application with HDPE	Five (5) Years	Must be used with: <ul style="list-style-type: none"><li>HDPE SDR-9 ASTM D2737</li></ul>
	SharkBite PEX Pipe	Twenty-Five (25) Years	Must be used with: <ul style="list-style-type: none"><li>ASSE 1061, ASTM F1807, ASTM F2098, and/or ASTM F2159 fittings</li></ul>
	SharkBite Brass PEX Barb Fittings/ Copper Manifold	Five (5) Years	Must be used with Non-SharkBite PEX Pipe and Clamps/Rings that conform to: <ul style="list-style-type: none"><li>PEX – ASTM F876/CSA B137.5</li><li>Copper Crimp Rings – ASTM F1807</li><li>Stainless Steel Clamp Rings – ASTM F2098</li></ul>
	SharkBite Poly PEX Barb Fittings	Five (5) Years	Must be used with Non-SharkBite PEX Pipe and Clamps/Rings that conform to: <ul style="list-style-type: none"><li>PEX – ASTM F876/CSA B137.5</li><li>Copper Crimp Rings – ASTM F2159</li><li>Stainless Steel Clamp Rings – ASTM F2098</li></ul>
	SharkBite Tools	One (1) Year	From date of purchase; used in accordance with instructions
	SharkBite and Cash Acme Thermostatic Mixing Valves	Five (5) Years	Must be installed per installation instructions
	Other SharkBite and Cash Acme Valves	Two (2) Years	Must be installed per installation instructions
	SharkBite Accessories (Ball Valves, Supply Hoses, Supply Stops, Supply Valve Box Systems, Kits, Manifolds, etc.)	Two (2) Years	Must be installed per installation instructions
