

# Energy Management Timers

## ST6008

**Honeywell**

Honeywell's Energy Management Timers are programmable timers with universal applications. For time-based control of lighting, ventilation, heating and cooling or any electrical loads in commercial and industrial applications, the ST6008 is the perfect choice.

# Energy Management Timers with Universal Applications

CONTROL EQUIPMENT. SAVE ENERGY.

**Reliability** – Battery backup for the quartz drive

**Universal application** – Only one timer to carry on your truck

**Compact** – Small footprint

**Flexible installation** – Surface or DIN rail mounting

**Easy installation** – Screw wiring terminal

**Three-way override** – Maximum security and protection

**Captive trippers** – Easy setting; no parts lost

**Heavy duty 21A contact** – Can switch low or line voltage loads

**Available programming** – 24-hour or 7-day program dial and a SPDT switch

**Durability** – Protected by a plastic casing

**Include terminal cover and subbase** – for installation and hard wiring

Part Number	Type	Minimum On/Off Time	Input Voltage	Battery Reserve	Relay Output	Switch Rating
