FOAM-CORE™

High strength, max foam condenser coil cleaner

Description

Foam-Core's penetrating surfactant foaming action lifts and pushes contaminants and grease out of areas of the coil which are normally inaccessible, to where they can be rinsed away with low pressure water. Leaves aluminum surfaces clean in less than five minutes. Foam-Core's powerful foaming cleaning formula is suitable for condenser coils and can be used on electronic air filters.

READ ALL SDS, DIRECTIONS AND WARNINGS ON LABEL BEFORE USE
