

11.5" Titanium Flatbar

This 11.5 Inch All-Titanium Multifunctional Flatbar delivers the strength you need for all your most important projects. It relies on a sturdy titanium body to withstand major force and minimize warping under pressure. This STILETTO® flat bar weighs 8.6 ounces for transport in your bag or on your belt. Unique hook and claw edges allow you to pull all sorts of fasteners, including hardened nails and 9/16-inch staples. These smooth edges protect your work area, so you do not scrape or cut permanent fixtures when you need to remove a fastener. The titanium flat bar measures 1.5-inches wide and allows you to quickly align the position of the head. Multiple fulcrum points create leverage in tight spaces and create maximum force with minimal effort.

INCLUDES:

[\(1\) 11.5" Titanium Flatbar \(FB11S\)](#)

FEATURES:

- 8.6 Oz solid Titanium bar with super strong arch design
- Pat. Pending Staple Puller mid-bar pulls 9/16" staples easily without nicking edges of expensive flooring
- Built-in bottle opener under arch
- Three separate Pat. Pending "multi-fulcrum" nail pullers - design increases leverage
