# Tub and Showers

## Architect/Engineer Specification

Chicago Faucets No. 2500-CP, TempShield Tub and Shower Valve, thermostatic/pressure balancing, wall-mounted, with shower head and diverter tub spout. Chrome plated trim. Tub spout with diverter, 5-3/8" center-to-center. Shower head with ball joint, 2.5 GPM max. flow rate @ 80 PSI. 1/2" NPT male thread valve body inlets. 1/2" NPT female thread valve body outlet. Shower head includes arm and wall flange. TempShield thermostatic/pressure balancing valve with Quaturn™ cartridge for on/off control. Built-in integral check stops. This product is tested and certified to industry standards: ASME A112.18.1/CSA B125.1, and ASSE 1016.

## Operation and Maintenance

Installation should be in accordance with local plumbing codes. Flush all pipes thoroughly before installation. After installation, remove spout outlet or flow control and flush faucet thoroughly to clear any debris. Care should be taken when cleaning the product. Do not use abrasive cleaners, chemicals or solvents as they can result in surface damage. Use mild soap and warm water for cleaning and protecting the life of Chicago Faucet products. For specific operation and maintenance refer to the installation instructions and repair parts documents that are located at [www.chicagofaucets.com](http://www.chicagofaucets.com).

Chicago Faucets, member of the Geberit Group, is the leading brand of commercial faucets and fittings in the United States, offering a complete range of products for schools, laboratories, hospitals, office buildings, food service, airports and sport facilities. Call 1.800.TECTRUE or 1.847.803.5000 Option 1 for installation or other technical assistance.
